

ADHESIVE FABRIC MOONWALLSTICKERS

DESCRIPTION

Material:

Opaque white polyester mesh fabric with acrylic adhesive, solvent-based and removable adhesion. Polyester (PET) holder with 0.05 mm thick. Indicated for printing through equipment with eco-solvent and solvent ink.

Application:

Can be used indoors, on smooth or low textured walls without humidity. Do not apply the adhesive fabric on latex or silicone based paints. Also, do not apply on fresh painted walls (let them dry for about 3 weeks).
